DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 18 and 19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 18, line 3, "the four corners" lacks antecedent basis in the claims, i.e. the elements are only inferentially set forth.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2, 4-16 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Pantisano et al. Pantisano et al discloses a box including cut lines 62, 64, 66, 68, 70, 72 allowing collapse of the container into a smaller pieces. No distinction is seen between the claimed box and that shown in Pantisano as a result of the claimed intended disposal of the container using the perforations/disposal assist means once collapsed since the parts of the box in Pantisano are capable of being disposed of once separated. The distinction is seen as only an intended use rather than a distinction in the structure of the box.

4. Claims 1-15, 17 and 20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Vassiliou '206.

Allowable Subject Matter

5. Claims 18 and 19 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
